## ABOUT US

In 1952, Roofmaster® Products Company was born out of the energy and vitality that made Post War America the richest and most successful economy in the world.

In those early years, companies like Roofmaster® made their name by bringing new labor saving equipment and innovative products to a nation that was building its future. Today, nearly 75 years later, Roofmaster® remains dedicated to the commercial, residential and technical product aspects of the roofing industry, and has become the world's largest manufacturer and wholesale distributor of quality commercial roofing equipment, tools, accessories and related supplies.

Roofmaster® currently manufactures nearly 60 different proprietary products exclusively for the commercial roofing industry, in a new, state of the art manufacturing facility in Fort Worth, Texas. The Roofmaster® name continues to serve as a leading symbol of design and engineering excellence of innovative products that has come to mean job-tested and field reliable.

Roofmaster® continues to set the standard for quality and timely service. Since the early 1950's, Roofmaster® has maintained a complete service department capable of repairing most makes of asphalt kettles, spray pump systems, single ply welders and small gasoline engines used by roofers. Our knowledgeable and helpful staff, averaging 20 years of experience, ensures the best source of technical expertise in the roofing industry.

Whether your application is BUR, Cold Process, Single Ply, or Tile, we have the equipment, the tools and the knowledge to help you get the job done right.

## EQUIPMENT

### RAZER TEAR OFF MACHINE

PART #:	475500
DESC:	RAZER - 13HP Honda Tear Off Machine
WEIGHT:	584.00

Roofmaster Razer Tear-Off Machine features the Latest hydrostatic transaxle, no hydraulic hoses or tank, easy access for field maintenance, heavy duty frame, industrial precision bearings and camshaft with 4 port grease block. An adjustable blade made of hardened special alloy steel. The Razer uses a 13HP Honda electric start engine and a low center of gravity at 584 lbs.

MINI RAZER

PART #:	491910
---------	--------

Easy to handle, the Mini-Razer will save on labor! Just ram it under old built-up roofing and press down to loosen old roof and insulation.

11HP SURFACE PLANER

PART #:	490200
---------	--------

Features a 12" solid steel fly wheel with four carbide tipped scratcher teeth.

RAZER BLADE

## EQUIPMENT

### ROOFMASTER SINGLE ROOF SAW

PART #:	490553(13HP Honda) 490526(14HP Kohler) 490520(9HP Honda)
DESC:	Single Roof Saw
WEIGHT:	253.00

All engines are OEM tested and comply with all Federal & State regulations

Our Uni-Tracking ability allows the saw to cut in a true straight line and prevents drifting while cutting. The frame and handles are ergonomically balanced for less fatigue. Our remote breather helps engine stay cleaner & run cooler by drawing air away from the roof deck.

### RM HEPA VAC SINGLE ROOF SAW

PART #:	490555(13HP Honda)
DESC:	Single Roof Saw
WEIGHT:	253.00

This model includes an engine water sprayer that wets down particles & dust eliminating most airborne contamination. HEPA Vacuum system vacuums up any remaining particles/dust not wet down by spray.

### RM 36" 5.5HP POWER BROOM

PART #:	453700
DESC:	5.5HP Power Broom
WEIGHT:	375.00

This 36" mechanical power broom features a 5.5hp Honda engine with a 6:1 gear reduction. The brush comes as a poly/steel wafer combination, but can also be all poly or all steel. The 21" wafers are larger than the industry standard 18" for longer life.

**12" CUTTER BLADE**
